

When Nobody Else Can!

GENERAL INDUSTRIAL REPAIR CAPABILITIES

Milling Capabilities

- 5 Horizontal Boring Mills Up to 120" cross travel x 80" vertical travel
- 6 Vertical Milling machines Up to 60" cross travel x 30" carriage travel

Turning Capabilities

- 12 Horizontal Lathes Up to 60" diameter x 25" center to center
- 4 Vertical Lathes Up to 110" diameter swing 80" under rail

- 42" Max Swing 200" between centers CNC Lathe

Grinding Capabilities

- 6 cylindrical grinders 58" diameter swing x 19" between centers
- I.D., O.D. and Surface Concave & Convex Roll Grinding

Drilling/Boring/Tapping

- Radial arm drill press Jig Bore 40" x 30"
- 2 Key seaters up to 3"

Full Welding Capabilities

- Electrode / Wire / Heliarc
- Submerge Arc Welding
- Flame Cutting / Air Arcing
- Plasma Cutting / Brazing
- Repair or Fabricate from Print

Miscellaneous Services

- Saw Cutting • Press Work • Metal Spraying • Diamond apping • Tre Panning

General Structure

- 25,000 square foot building with 3 cranes up to 25 ton capacity
- 24 hour emergency repair and fabrication work in shop or in field
- Housing over 25 employees including Mechanical, Electrical, and Hydraulic Engineer's

Quality Control

- Quality Control Inspection Area Calibrated Annually
- 6 Computer Network with Cad Cam Software and DNC Capabilities
